ABOUT MASTER MARK

Beautiful. Responsible. Economical.

Master Mark is the premier brand of lawn and garden products. A family owned and operated company, we have been the leader in lawn and garden products for over 50 years. Master Mark products are developed to be effective and affordable to every professional landscaper or do-it-yourself homeowner. Rest assured, we are committed to providing you with the best service, the highest levels of customer satisfaction, and the finest quality landscaping products.

Keeping the Outdoors Beautiful

As one of the largest and most experienced recyclers of high-density polyethylene plastics (HDPE), our recycling operation takes this plastic and grinds, washes, and treats it for use in our lawn and garden products. Each year we save over 13 million pounds of #2 recycled plastic from landfills! We also make every attempt to develop our product packaging for material use and landfill impact.

Greener Products for a Brighter Future

Our leadership in environmentally friendly products is enabling breakthroughs across a broad range of markets. While our innovation efforts are having a substantial impact for our customers, we constantly strive to deliver these innovations on an ever more efficient footprint.

Increasingly, customers challenge us to think holistically about our footprint and find ways to balance the trade-offs between the clear benefits of new products and materials and the long-term life cycle costs of our production process.

Sustainability Award

Our commitment to sustainability is exemplified through our recognition from the United Nations' Environmental Programme (UNEP) Award. This esteemed accolade acknowledges efforts by individuals and organizations that have demonstrated outstanding contributions in the field of environmental conservation and sustainability. One of the original pioneers of recycling, we're doing our part to help keep plastics from our oceans and landfills.

MADE IN USA

 FROM RECYCLED MATERIALS

Proudly Made in USA

The premier quality of Master Mark lawn and garden is a direct result of the American workers and craftsman that produce our products right here in the USA. Our third generation, family owned and operated company is headquartered in Paynesville, Minnesota. You can count on the durability of our products as they are tested and proven in a climate with 150° temperature swings from Summer to Winter.
